

Automated Property & Evidence Management Software (A.P.E.)

Designed to save time and better manage property & evidence, we have configured an expert solution that is built on Smeadlink® technology. This is an ideal solution for small or large departments with an emphasis on the ease of use and the ability to expand as your needs grow.

Standard Features include:

- Management of Evidence, Property and Safekeeping with separate rules for processing, retention and disposition.
- Barcode tracking with stationary and portable readers.
- Standardized fields & titles for ease of data entry that can be added or modified.
- Digital Signatures: typically required for handling of weapons, drugs, currency and jewelry.
- Digital Document and Photo archiving.
- Audit trail of Items and Users.
- Label Printing with **color** for designation of **items** & **case** types (eliminates the cost of different colored envelopes).
- Automated claim & authorization notice letters for items due for disposal.
- Reminders for follow up by item type.

APE solutions are sold and serviced by Walter H. Hopkins Co., headquartered in Atlanta, GA with satellite offices in Birmingham, AL; north Georgia; south Georgia and the northwest area of Florida.

For additional information and/or to schedule a demonstration, please contact an area representative.
